International exchange at Innopolis University 2018/2019

A world class academic IT center
The university at a glance

Innopolis University is a new Russian university focused on education and research in the field of IT and Robotics.

It is an intellectual driving force of an ambitious Innopolis project — a brand-new IT-hub on the world map.

- The university is situated in a picturesque location with an easy access to the third biggest Russian city – Kazan.
- Smart high-quality infrastructure, state of art education and research facilities.
- Diverse cultural and social environment. More than 50 student clubs.
- 12 research laboratories and 8 centers, 100 industry partners
- Active cooperation with 32 world’s best universities
- World recognized faculty staff
- All courses conducted in English
Get exchanged

- **Eligibility**

  If your Home University currently has a bilateral exchange agreement with Innopolis University, you are eligible to apply to participate in our exchange program.

- **Financial conditions**

  Exchange students are free from paying the tuition fees at Innopolis University.

  However, they are responsible for all other personal expenses incurred during the exchange period, including visa, travel, meals, health, books and stationery required.

  Innopolis University provides limited grants for incoming exchange students to cover round-trip transportation and accommodation.
